PROJECTS

E-Learning App

<https://ergis-elearning.herokuapp.com/>

A simple E-Learning web application.

The app supports 3 roles:

1. Admin
2. Teacher
3. Student

Admin functionalities:

- Can view all teachers / students
- Add / Edit / Delete teachers / students

Teacher functionalities:

- Views the list of his courses
- Creates new courses
- Registers students in his courses
- Views the course's registered / non-registered students
- Creates tests containing multiple questions
- Views course's tests
- Views the detailed student's test results

Student functionalities:

- Views list of courses in which he is registered
- Completes the tests online
- Views his test results

Every user can:

- Modify his profile
- Change his password

The technology stack consists of: Java (API's, secured with JWT token), ReactJS (client-side, with protected routes) and a MySQL database.

Employee Manager App

<https://ergis-employee-manager.herokuapp.com/>

A simple employee manager application.

- User can add / modify / delete employees.

Admin can also:

- Add / modify / delete users.
- Add / modify / delete roles.
- Switch role access on / off to users.
